AN EXPERT'S OPINION

What Colonel Stickney Says of River Improvements.

DAMS AS FAR AS WHEELING

Will Work Wonders According to His Ideas, and Aid in Making the Stream Navigable Every Day in the Year—Great Interest Manifested in the Cincinnati Convention.

The convention of congressmen, rivermen, business men, manufacturers and all other people interested in the improvement of the Ohio, and the building of dams and dykes that will make the stream navigable every day in the year, will be the greatest gathering in the history of Cincinnati, and is expected to work a world of good.

The question has been discussed so much and hauled this way and that with so much vigor that a Pittsburg paper recently asked Colonel Stickney his views of the matter. As a practical engineer, Colonel Stickney has no equal in this country, as he has had the experience, and when he talks on the subject, he knows what he is talking about. He was an engineer for the government during the late war, and his opinions on engineering matters are largely sought for. In a letter sent to Colonel Stickney he was asked the following questions: How much money will it take to complete the slackwater system between this city and Cincinnati? If dams were built higher than the one now at Davis island, would it lessen the number to be constructed between the two places? Could the work be done cheaper by contract, but under the supervision of the United States engineers? If the slackwater system was completed between this city and Wheeling, how many months in the year would it increase navigation between this city and Cincinnati, and will it be necessary to build a system of locks and dams the entire length, between this city and Cincinnati, to give the river shipping interests a navigable stream all the year? In his reply Colonel Stickney says:

"I can only reply to your questions in a general way. In 1875 Colonel Merrill submitted an estimate of cost for locks and movable dams, to give at least a navigable depth of six feet at all times from Pittsburg to the mouth of the Ohio river. This provided for 68 locks and dams at a roughly estimated cost of \$39,000,000. From Pittsburg to Cincinnati it estimated that 47 locks and dams would be necessary. Movable dams cannot be built much higher than the one at Davis island, on account of the difficulty in operating them. I do not think work of this kind should be done by contract, though, of course, material would be purchased by contract. It would require considerable study and comparison of water records to answer your question as to increase of length of time the river would be navigable with a system of dams to Wheeling. The building of dams for the whole length of the river, or even to Cincinnati, is not, in my opinion, necessary to make a navigable river. Just how far down the Ohio from Pittsburg the slackwater system would be best, is not, in my opinion, a question for immediate solution, but I think it would be safe to say that such a system as far down as Wheeling would be advantageous. A very great improvement can be made in the open river navigation of the Ohio, and much of this would be necessary, even with slackwater system of movable dams.

"AMOS STICKNEY,
Lieutenant-Colonel of Engineers, U. S. A."

The statement by Colonel Stickney, that in his opinion it would not be necessary to build a system of locks and dams the entire length of the river, or even as far as Cincinnati to make the Ohio navigable, is a matter for considerable study and rivermen contend that the river could be improved its whole length at a cost of many millions less than was figured by Colonel Merrill. If dams were built two feet higher than the one at Davis island it would do away with one dam in every six, but the difficulty of operating them, rivermen contend, is apparent. Some time ago, in answer to an inquiry, Colonel Stickney said that, with a system of cross, or spur dykes between this city and Cincinnati, the river could be made navigable all the year, and he probably had this system in view when he says it would not be necessary to build dams the entire length of the river, or even to Cincinnati, to make navigable water. Rivermen who have made a life study of the river, say that in many places there are deep pools in the channel, which extend a number of miles in length, and of course where these places exist it would naturally do away with dam building.

Captain John A. Wood, an old riverman, whose fame has spread beyond the length of the stream, is quoted as saying that if the United States government will extend the slackwater system as far as Wheeling, he will prove that in two summer months in the year he will be able to ship coal to Cincinnati by draining two feet of water from each of the pools above the one at Wheeling, and float the coal on the rise which would follow. In explanation of this Captain Wood said that, in the early days of boating, before they had dams, he has taken coal to Cincinnati on a rise extending only 29 miles in length, and got to his destination all right, but of course had to stay with the rise. He has done this, he says, when the rise would arrive here in the morning, and by night it would have passed, and those who waited would be left. This often happens nowadays, but Captain Wood says it only shows how advantageous a system of locks and dams between this city and Wheeling would be to the general public.

While the Pittsburg coal men would be the great gainers by the slackwatering of the river, every manufacturing town along its entire course would be benefited. It is better than any company line of railway, because freight can be carried so much cheaper, and would be especially beneficial to this city, because there is only the remotest possibility of another railroad being built through here. Liverpool should be represented at the convention.

BEAT A HASTY RETREAT.

A Reminiscence of the Smallpox Panic in Liverpool.

They were talking about the smallpox scare in Wheeling when the dignified man with the silver locks recalled an incident of the smallpox panic in this city.

"I was a member of the board of health then," he said, "and we were deliberating at city hall one morning when a man walked in the room, and we almost dropped off our chairs. His face plainly showed that he suffered from the dread disease, and we had seen enough of it to know what it was. For the next few seconds it seemed as though there would not be enough doors and windows to allow the escape of the dignified board, but we rallied before there was a scene, and then decided to take the sick man to the pest house out on the hills beyond the reservoir. He did not realize the great danger in which he had placed us, and was surprised when he was ordered to march in the middle of the street, which he did. It was a pretty sight to see that man with the smallpox walking up the road while a member of the board walked on the pavement each side. But we got him safely in the hands of the doctors and then breathed easier. He had heard we were at city hall, and only came around to tell us he had smallpox."

CHARLESTON.

Good Attendance at the Opening Last Evening.

A large crowd saw "Charleston" at the Grand last evening, and were repaid for patronizing the amateurs who presented the excellent piece. While some of the players showed they had not always been on the stage, others did very well, more than one proving talent and careful training. J. G. Bailey, as the darky boy, was a pronounced success, and Miss Florence Jessup, in the Irish character, did better than any amateur seen in the city for many years. Taken all in all, the performance was a pronounced success, being on a par with many professional entertainments that have appeared on the same stage. The success of last night insures good houses this evening and tomorrow. The stage settings were very good, and created no end of favorable comment.

TALKED ABOUT A STORE.

Mr. Andrews Was Before Trades Council With His Plan.

At the meeting of Trades council last night Mr. Andrews was given opportunity to explain his plan for forming a cooperative store association in the city, and talked fluently upon the subject, but no action was taken. The three delegates who will represent the clerks were presented and seated in the organization. F. Leslie Trump, financial secretary, tendered his resignation and it was accepted, the place being given to Thomas Mills, of the kilnmen. The meeting was largely attended, and was one of the busiest ever held by the council.

Principal and Interest.

Thomas Means & Sons, of Wheeling, today recovered judgment in the court of Squire Morley for \$172.75, with interest from the first of the year. The case was against Anna Woolscroft because of some merchandise she had purchased.

FAIRMOUNT ALL RIGHT

The Home Is a Model Institution for Children.

THE NUMBER IT EMPLOYS

Economically managed by the Commissioners of Columbiana and Stark Counties, It Stands High in the State—Praised From a Democratic Source.

Superintendent Southworth, of the Fairmount home, has some interesting statistics to give the commissioners of Columbiana and Stark counties when he makes his annual report in a few months.

During the year ending August 1 they have cared for on a daily average 155 children, at the cost of \$85.30 per capita for the year, making the entire cost for the year \$13,021.50. Of this amount \$2,200 was earned on the farm by members of the home. Not a single death has occurred among the inmates of the home. Mr. Southworth has placed during the year 32 children in homes on indenture and nine by adoption, leaving 140 still in the home at the close of the year. There are 23 persons employed at the home, there being three teachers, six matrons, two farmers, one electrician; four in Mr. Southworth's family and remaining being selected from the older inmates of the home.

In spite of various attempts on the part of the local Democratic press to show that the home is in a deplorable condition, the Alliance Critic, a Democratic paper, has this to say of the institution:

"Five years ago Mr. and Mrs. Southworth were appointed to their present positions, and the commissioners have not made a mistake in their choice, as the institution has been in a flourishing condition under their regime. The people of adjoining counties and Stark county are not aware that the Columbiana-Stark county children's home is among the finest, if not the finest home of the kind in the state of Ohio. The Lucas county home is a little more modern but not free of debt. The Lucas home is under the supervision of Mr. Neice and daughter, formerly of the Fairmount home, but not near the work is done in the Lucas home as at the Fairmount home. At the annual convention of the children home superintendents at Delaware, Superintendent Southworth was introduced as the overseer of the finest if not the finest home in the state. His work was found to be up with any home, and he was congratulated upon his work."

That should be enough to convince the most sceptical that the directors, of which Hon. David Boyce is one, are putting forward efforts to make the home a model institution.

THAT RACE.

The True Athlete Is the Man Who Retires Gracefully When Beaten.

It is nothing, if not amusing, to note the objection of Sandy Steele in a local paper last evening, because the News Review located Mr. Rogers, the new physical director of the association, in the minds of the public as the man who had beaten him in a tri-state field contest. His laying the blame for defeat on the News Review man, one of the judges, is doubly amusing, since George Matheny and Daniel Ogilvie, two gentlemen of undoubted integrity, were the other judges. It is plainly to be seen, however, that Steele has been advised in the wrong direction by some of his over-zealous and admiring friends, who have been talking far too much outside to keep their identity to themselves. The true athlete is the man who retires gracefully when beaten, or has the courage to issue another challenge if he still believes he can win. As to the success of future field days, it is advisable for Mr. Steele to remember that one man no more makes a field day than one lump makes a load of ice.

PREACHERS AT POLITICS.

Lively Scenes in the Conference at Canton.

The Methodist Episcopal conference is in full swing today and the preachers are working as hard as they are having a good time.

The announcement of the standing committees yesterday afternoon showed that Reverend Sears of this city had a place on the committee dealing with parsonages, and Doctor Locke was among those who were to handle the stewards. A series of resolutions praising Bishop Vincent and asking him not to transfer ministers from this conference without substituting men of equal brain power were passed, and the reports of the presiding elders were taken up. When asked if they had anything against any of the ministers there was no response, and the assembled preachers broke out in loud applause, for that meant there would be no trials of conference members. Bishop Vincent is a masterly presiding officer, and all like him. He does not think all ministers are to be called preach, and looks upon those who think so as fanatics, and he doesn't want fanatics in the church. A special from Canton says: "The preachers have all developed into politicians and such wire pulling has not been seen in a conference. There are jealousies that have cropped out during the year, and they are not tending to add to the spirit of the occasion. The place of meeting is provided with numerous committee rooms, and during sermons or lectures or the reading of reports ministers retire to these little rooms and concoct schemes for advancement and hold whispered conversations concerning candidates for delegates to the general conference."

The preachers are early risers, and at 8:30 this morning Bishop Vincent conducted devotional services, the conference convening half an hour later, and devoting the time until four this afternoon for the transaction of business. The veterans conduct their campfire tonight, and the Freedmen's society celebrates its anniversary.

PROSECUTOR HUFF DEAD.

A Prominent Hancock Attorney Died This Morning.

E. D. Marshall received the news from New Cumberland at noon today that W. J. Huff, prosecuting attorney of Hancock county, had died there this morning. Deceased was born near Pughtown 38 years ago, and was well known in this city. He was educated at Mt. Union and the Cincinnati law school, graduating from both institutions with honor. Six years ago he was elected to the office he now holds, solely because of his attainments and personal popularity. He was married to Miss Finley, a prominent young woman of Chester, who survives him. He was a leading member of the Junior Mechanics.

RAN FOR THE RIVER.

An East End Woman Wanted to Finish Her Life.

They say in the East End that a sensation would ring through the city if the facts in an incident that occurred last night were all made known. A woman wanted to end her life, being anxious to pass into the great beyond because of a happening, the disgrace of which she imagined she could not bear. The sensation is trimmed out in all the frills and furbelows of such happenings, and caused no end of talk among the people who chanced to learn of it. Every effort was made to keep it quiet, and with some success, but it is known that the woman made a desperate attempt to drown herself.

WANTED A PALACE CAR.

Jim Sharp Was Taken to the Works Today.

Jim Sharp, who wanted to annihilate his wife and a lot of other people with a hatchet the other evening, was taken to the Canton workhouse by Patrolman McMillen this morning. At the station Jim was in a playful mood, and suggested to the officer that they ride out in a parlor car, because he was not accustomed to riding in the smoker. He was informed that he should be glad he didn't have to walk, but Jim seemed to know the authorities were so happy at the thought of his absence that if necessary he could have gone in a parlor car.

A HOT DAY.

All Mankind Groaned Under the Scorching Heat.

The mercury in every thermometer in town did its best to get out of the tube today, so fiercely did the rays of the sun beat down upon the valley. Kilometers had all they could do in the potteries to endure the heat and complaints were heard in every other walk of life. The west is getting its share of the heat also, and the mercury out there goes even higher than in this latitude. There is no cold wave in sight just yet, but local thunder showers may lower the mercury tonight and tomorrow.

OFFICIALLY ANNOUNCED.

Authorities Notified That Wheeling's Quarantine Is Raised.

Mayor Gilbert this morning received a circular from Mayor Caldwell, of Wheeling, announcing that the quarantine is raised, and the people from Hancock county, and numerous other counties along the river can come to the metropolis whenever they so desire. This is done on the authority of Dr. N. D. Baker, health officer, who claims that the epidemic is under control and every case is isolated. The quarantine has been in effect so long that Wheeling began to feel the effect of it.

STUMBLING AND FELL

Mrs. Frank Earl Pitched Headlong Downstairs.

A WELL-KNOWN LADY INJURED

Picked Up Unconscious and Found to Have Sustained Serious Injuries—Cuts and Bruises, but No Bones Broken—Suffering Much Today.

Mrs. Frank Earl, wife of the policeman, met with a serious accident late last night.

She had started to go downstairs after her husband returned home and was off duty, and, stumbling at the top step, fell headlong to the landing below.

She was picked up unconscious, and it was some time before she was revived and a physician gave medical aid. The lady sustained several bad cuts about the head and face, and her body is a mass of bruises, but unless internal injuries appear it is not thought the accident will result fatally. Mrs. Earl is suffering considerably today. The accident occurred at the Earl residence on Walnut street.

A FUNNY TRIAL.

Humphries Case Causing Ocean of Fun at City Hall.

Those who attended the case of Thomas Humphries versus Patrick and Mrs. Catharine Costelow at city hall this afternoon, found the fun they were looking for.

Humphries sued for something over \$100 claimed as wages for work in the East End brickyard. Before the trial he and Mrs. Costelow had several hot arguments and when Humphries was put on the stand it continued except that P. M. Smith was Tommy's opponent. Humphries said he was to receive \$1.35 a day and \$2 a week on account until the first brick was sold. "But one Saturday night he couldn't get trusted at the grocers and I starved over Sunday." Tommy's book of original entry was a piece of wrapping paper, with the "tally" of 57 days' unpaid for work. Although Costelow owed him, Tommy said he paid him \$3.50 rent each month because he tormented the life out of him. "I've asked him a thousand million times for what he owed me" said Humphries. "He won't pay anybody anything anyhow." At 4 o'clock the trial was postponed.

A WOODEN WEDDING.

A Pleasant Surprise on Washington Street.

Major and Mrs. Newman, of Washington street, were pleasantly surprised by a party of relatives who came in to aid them in celebrating their wooden wedding. They were presented with many beautiful and appropriate presents of wood, and appetizing refreshments were served. Reverend and Mrs. Swan came up from Toronto to take part in the pleasure, and Reverend and Mrs. B. M. Swan drove over from New Waterford. Mrs. J. L. Swan returned with the last named this morning for a visit.

WALLACE GOT REVENGE.

George Pease Was Arrested and Fined for Drunkenness.

When James Wallace called on the mayor yesterday afternoon and told a story that would have brought tears from the electric lights had they heard, he little thought that George Pease, the man he wanted arrested, was even then preparing to work out retribution on his own head, but such was true. Early in the evening Officer Earl found Pease on Sixth street, and seeing that he was very drunk, took him down. This morning he paid Mayor Gilbert \$5.75, and departed in peace.

HUNTING A BREAK.

Bridgewater Gas Consumers Out of Fuel.

Consumers of Bridgewater gas awoke to find this morning that there was little if any fuel, and while they only needed it for cooking breakfast this hot morning they had their hands full doing that. The cause of the scarcity is a break above the city on the other side of the river which occurred yesterday at noon. A force of men were immediately put to work hunting the spot, but they had not found it this morning. There will be an abundance of gas after it is found.

Waved Her Umbrella.

Mrs. Anson, residing near the residence of Charles Stevens, where there is a diphtheria case, had an amusing argument with Officer King at Fifth and Market this afternoon. The woman was mad because of certain regulations in the quarantine, and shook her umbrella at the officer.

Gov. Culberson Won't Discuss Judge Hurt's Decision.

BUT HIS ACTIONS ARE OMINOUS.

It is Evident That He Intends to Ignore the Court's Opinion and Stop the Fight. He Can Call Out the Rangers to Prevent the Big Fistic Event.

AUSTIN, Tex., Sept. 19.—When Governor Culberson was seen in reference to Judge Hurt's opinion, at Dallas, favorable to prizefighting, he refused to express himself, but it is evident he will ignore the opinion and prevent the event. He has been looking up Governor Ross' action on the Sullivan-Killrain fight, which he prevented from coming off in Texas, but was unable to find the records, which have been misplaced. Your correspondent, however, furnished him with an official copy of Ross' order to the sheriff, wherein he cites laws still in force and commands him to enforce them. Governor Culberson has several copies of the order made, and it is certain he proposes to prevent the fight.

Texas has a ranger force controlled and governed by special laws, and they can be ordered anywhere in the state by the governor without military regulations, and their special province is to prevent infractions of laws. Governor Culberson will probably use this force.

Ross directed sheriffs to call on the military if necessary, and Culberson's action unmistakably indicates that he will do the same and prevent the fight at all hazards.

SOVEREIGN GRAND LODGE.

Grand Treasurer Shepard Resigns and His Successor Is Appointed.

ATLANTIC CITY, Sept. 19.—At the session of the Sovereign Grand Lodge, Independent Order of Odd Fellows, resolutions were introduced to revise the ritual of the Patriarchs Militant and to amend the insurance law of the order, which were referred to the proper committee.

The following special committee was appointed to take action in regard to the purchase of property in Baltimore, for the use of the Sovereign Grand Lodge: James Young and John M. Jones, Maryland; W. W. Morris, Kentucky; M. Richards Muckle, Philadelphia; Alfred S. Pinkerton, Mass.; General A. C. Cable, Ohio, and T. T. Parson, Missouri.

Great surprise was occasioned by receiving the resignation of Sovereign Grand Treasurer Isaac A. Shepard of Philadelphia, due he wrote to failing health. M. Richards Muckle of Philadelphia was nominated for the vacancy. There was no opposition and he was unanimously elected.

Amendments to the constitution, introduced at last year's session, came up for final action. The first amendment was the addition of another section to Article 16, providing that no saloon-keepers, bartenders or professional gamblers shall be eligible to membership in the order. This immediately raised a spirited debate, which lasted for more than three hours. The vote was finally taken and the amendment passed by a vote of 167 to 32.

This amendment has been successfully introduced at the annual sessions for four or five years past, but its supporters were never able to pass it before.

The Powers May Interfere.

LONDON, Sept. 19.—There are indications that the powers may be invited to interfere in the affairs of Belgium and the Congo Free State. The feeling in England regarding King Leopold's African venture was never very favorable, and the execution last January of the English trader, Stokes, without it, is alleged, observance of the due processes of the law excites much indignation here, which has found expression in the late session of parliament when the foreign office was urged to demand explanations.

Mortgaged For \$5,000,000.

MONTGOMERY, Ala., Sept. 19.—A mortgage for \$5,000,000 has been filed here in which the Louisville and Nashville and Mobile and Montgomery companies mortgage the latter company's property to the Central Trust company of New York. The mortgage recites that the proceeds of the cancellation of the \$5,000,000 existing bonded indebtedness of the road and to "additions, improvements and extensions."

Much Fruit In Michigan.

GRAND RAPIDS, Mich., Sept. 19.—The oldest inhabitant of Western Michigan has never seen anything to compare with the fruit crop of 1895. The season has been a most remarkable one. The snowstorm in June and the severe frosts which immediately followed were thought to have annihilated the entire crop, but fruits of all kinds seemed to have been increased instead of damaged.

SPAIN MEANS BUSINESS.
Four Consular Officers Appointed For Florida to Prevent Flibustering.

WASHINGTON, Sept. 19.—An evidence of the active efforts being made by the Spanish government to frustrate the departure of filibustering expeditions from the south to Cuba is afforded by the appointment of four Spanish consular officers for Florida alone. These have been recognized by the president as follows: Enrique Mariategui and Pedro Solis Y. Arias, as vice consuls of Spain at Tampa; Manuel Garcia Cruz, vice consul of Spain at Jacksonville, Fla.; Manuel Rodriguez Escudero, consul of Spain at Key West. Rowland W. Stuart has also been recognized as consular agent of Italy at Bangor, Me.

Information has reached the treasury department of the seizure of the schooner Lark off Pine Key, Fla., substantially as given in these dispatches yesterday. The Spanish minister called at the state department with a statement obtained from the Spanish consul at Key West, that the Lark was only a part of an extensive filibustering expedition fitting out in Florida waters, and asking that the commanders of the revenue cutters now on duty there be instructed to use increased diligence in apprehending suspected offenders. This information was transmitted to the department of justice and also to the treasury department, and resulted in instructions being sent to the United States attorney and his marshals, and also to the customs collectors and commanders of the vessels of the revenue fleet, to use every possible means to arrest and bring to justice any offenders against international law.

THE INDIANAPOLIS FIRE.

The Total Loss From the Flames Will Aggregate \$454,000.

INDIANAPOLIS, Sept. 19.—The losses and insurances by the big fire in this city are as follows, though many of the minor losses which in the aggregate will amount to several thousand dollars are not included:

Eastman, Schleicher & Lee, 6-story building, building loss \$25,000, covered by insurance. The firm will lose \$175,000 on stock with \$100,000 insurance. The Indiana National bank building destroyed, loss on building \$40,000 to \$50,000; Addison C. Harris, law library, \$15,000, no insurance; George Manfield, stock valued at \$35,000 to \$40,000, total insurance, \$25,000; his damage is from smoke and water; George Wingerlos' tobacco store, \$5,000, covered by insurance; store of J. W. Hart, stock damaged, no estimated loss, but is covered by insurance.

The New York store owned by the Pettis Drygoods company is a heavy loss by fire and water. No figures, but it will run away up into the thousands. The Condit (W. U.) block, loss to the telegraph company, \$5,000 in batteries and instruments. The building was also badly damaged. In this building were located the offices of Baldwin, Miller & Co., whose loss is \$10,000, with \$5,000 insurance.

Across Washington street from the fire the intense heat cracked many of the plate glass windows of the stores. The total loss on stocks, fixtures and effects will amount to \$357,000. The loss on buildings aggregated about \$97,000, giving a total loss of \$454,000.

Gentry Beats Potchen Affair.

MILWAUKEE, Sept. 19.—John R. Gentry, the fastest stallion in the world, has added another to the list of victories which brightens his remarkable record. By beating Joe Patchen, his most formidable rival, in three straight heats at the fairgrounds. No records were wiped out and the two pacing kings did not show the speed which they have proved themselves possessed of, but the time was such as only these horses, and two others, Robert J. among them, could have possibly made. The fastest mile, which was the first paced, was done in 2:05 3/4, and the fastest quarter was in 29.

Bid For a Field Gun.

WASHINGTON, Sept. 19.—In response to advertisements for proposals to supply a rapid fire field gun and ammunition sent out by the ordnance bureau of the war department, but one bid was received. It came from the Hotchkiss Ordnance company and has been opened. This company agreed to supply the gun with spare parts for \$1,500; to furnish a non-recoil field carriage for \$1,200, and to supply other articles required at the following rates: One hundred solid brass drawn cartridge cases, \$300; 300 common shells, empty, \$675; 300 rounds of smokeless powder, \$660.

A Town Almost Wiped Out.

DODGE, Neb., Sept. 19.—This town has been almost wiped out by fire. Forty business houses burned with contents and also residences. The damage is over \$100,000. Fremont, Scribner and other towns sent special trains with fire apparatus, which arrived too late to be of service. A fierce wind was blowing at the time. Many accidents occurred during the fire. The property was well insured.

Campos Thinks It Serious.

LONDON, Sept. 19.—A dispatch from Madrid to The Pall Mall Gazette says that General Martinez Campos has written to Senator Canovas Del Castillo, declaring that the Cuban rebellion is a great deal more serious than it was at the time of his last report.

A Mexican Youth Arrested.

CHICAGO, Sept. 19.—Rafael Cordina, a Mexican youth, has been arrested at the Palmer House here, charged with the smuggling of diamonds. Gems to the value of \$4,000 were found in his baggage.

General Harrison Arrives Home.

INDIANAPOLIS, Sept. 19.—General Harrison has returned from the east, after an absence of two months in the Adirondacks. He declined to talk politics, and said he would give attention at once to his law business.

Gov. Matthews Will Speak.

INDIANAPOLIS, Sept. 19.—Governor Matthews has declined to open the Ohio Democratic campaign at Columbus, but he has agreed to make ten speeches during the course of the campaign.

Cholera Ravaging Japan at a Fearful Rate.

HAS A FIRM FOOTHOLD IN CHINA.

Foreigners Fleeing Before the Plague at Nanking and Chu-Chai—A Missionary and Child Die of the Disease—Tokio and Yokohama Plague Stricken.

SAN FRANCISCO, Sept. 19.—Notwithstanding the efforts of the Chinese and exchange officials to suppress the news in regard to the cholera, the truth has at last come to light concerning the plague. Japan and North China are alive with cholera germs.

Siberia official have declared Japanese open ports infected, and from officials and from official sources it is learned that over 17,000 people have died in Japan from the plague since its start in the Pescadores.

In China the disease has gained a firm foothold. Advice by the steamer Rio Janeiro report that in Tokio the heat is terrific, and the disease germs have been nursed into virulent life. The plague also rages at Yokohama.

Miss Turner and the child of Dr. and Mrs. McFarland of the Chu-Chai London mission were stricken and died. At Nanking much illness prevails among the foreigners, many of them having been forced to flee from the country.

Fatal Wreck at Braddock.

PITTSBURGH, Sept. 19.—A fatal wreck has occurred at Braddock. The rails spread before a heavy train, throwing the engine on one side and the cars on the other side of the track. The fireman, James P. Kelly, fell under the boiler of the engine and was crushed to death. His body, horribly mangled, was taken to Flannery's undertaking establishment in Braddock. Frank Miller, the engineer, was thrown on a lumber pile 15 feet away, and had an arm fractured, face cut, and had deep scalp wounds, and it is feared he is internally injured.

Working on the Amphitheatre.

DALLAS, Sept. 19.—President Stuart of the Philadelphia Athletic club has put 100 mechanics and laborers at work on the arena for the Corbett-Fitzsimmons prizefight. Hundreds of people have visited the building. The contractors say the building will be finished by Oct. 30.

A Prince Given a Furlough.

League Games Today.

Pittsburgh at Cleveland, New York at Boston, Baltimore at Brooklyn, Washington at Philadelphia and Louisville at Cincinnati.

LOCAL BREVITIES.

The Jewish holiday is being observed in the city today.

A little child of Mr. Frost, residing on Sixth street, is dangerously ill.

The first cheap excursion of the season to Pittsburgh attracted 75 people from this city this morning.

The Royal Arch Masons of Wells-ville and their wives will be entertained by the Liverpool chapter next Wednesday evening.

The funeral of the late Mrs. Flowers will take place tomorrow morning instead of this morning, as was stated in this paper last evening.

Harry Finley, of Chester, returned this morning from New Cumberland bearing the news that Prosecutor Huff is very low, and will likely die within the next few days.

The friends of Charley Tarr have learned that he is in Kentucky traveling with Si Perkins. He not only looks after the music, but does a comedy part as well.

The painting crew of the railroad company are here today brightening the safety gates and signal posts. They might send another crew along for the purpose of painting the wood-work about the depot without making a mistake.

The committee having in charge the lecture course of the Young Men's Christian association have already started the sale of tickets, and the excellency of the course so appeals to the public that it is believed a good season will result.

Before leaving the city, Doctor Huston, pastor of the First Methodist Episcopal church, arranged with Doctor Lee, pastor of the First Presbyterian church, to occupy his pulpit on Sunday, and that eloquent gentleman will preach morning and evening.

When Harry Burgess was riding on Fourth street last night he attempted to turn into an alley as a man was coming out. The turn was sharp, and in trying to avoid a collision Burgess received a hard fall, with the usual complement of scratches and bruises.

Frank Smith, the young man who created so much excitement about the Hotel Grand the other evening, is much better and is improving rapidly. He is recovering from the effects of the diphtheria as well as his late illness, and will soon be able to be out.

Two young men who sat in the rear part of the opera house last night should take lessons in etiquette and thereby not cause their lady friends to be subjects of uncomplimentary remarks. Reference is made to those young men who by their actions disgusted people at the opera house last night.

Two small boys who were playing with a wheelbarrow on Sixth street last evening created a laughable scene by running into a portly resident of the West End, and tumbling him into a heap. He was not hurt, but after he found his breath, said some things that would not sound well in Sunday school.

There was terror about city hall this morning at 11 o'clock when Chief Gill announced that the mercury was standing at the 96-degree mark in the shade, and he was fearful lest it would go a little higher. Mayor Gilbert looked aghast at the news, Clerk Hanley turned pale, and even the chairs began to move uneasily.

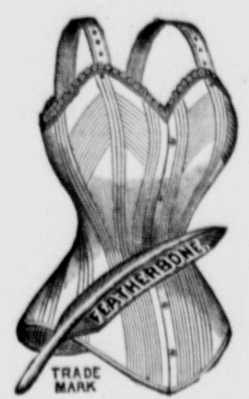

The Lisbon fair drew another large crowd from the city today, but yesterday got the bulk of people who attended from here. The dust was almost unbearable, so great was the number of vehicles on the roads leading to the county seat, and one carriage load from this city got into a procession in which more than a dozen vehicles followed each other closely.

Warren McCain believes in advertising. The other evening he lost a valuable lapel button on the street, and last night placed an advertisement in the classified columns of the NEWS REVIEW. This morning Mr. McCain called bright and early at this office to say that his button had been found and returned. When you want to reach the people, advertise in the NEWS REVIEW.

To what extremes the small boy will go to imitate wild west or Buffalo Bill was shown by a sight on Sixth street a few days ago. A youngster was arrayed in the sombrero, soft shirt and pants, the latter rolled above his knees and his legs painted a bright red, while different colors of war paint decorated his face. He was mounted upon a horse, and calling for everybody to "come and see the great wild west show."

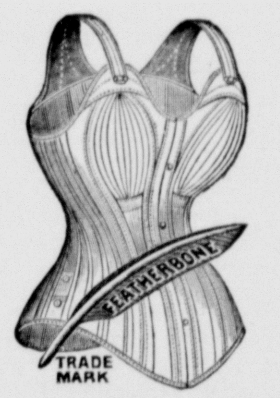

It is suggested that an error was made in the story recently telegraphed from Boston that the Masonic college was to be located above this city on the West Virginia side, and that the dispatches should read below East Liverpool, meaning the syndicate property opposite the West End. The story that the college would be founded and built within the next few years was printed in all parts of the country.

What are
Featherbone
Corsets?

How are they different from other corsets. These are questions frequently asked us. To explain this correctly we must first state that the Featherbone corset people have a patent process of transforming the quills of feathers into an article for boning corsets that has no equal. It is not affected by dampness or perspiration; is soft and pliable. You cannot break it. It will stand washing and takes readily to your form. The corset needs no breaking in, and with each one sold the manufacturers give a written guarantee that the corset will be satisfactory or your money will be refunded.

Featherbone
Corset
Waists.

No corset waist sold will equal it for fit and wear. It's the perfect shape and gives your form a perfect contour. It is not a high-priced waist. We have them with the buttoned front or with the steels, in both drab and white from 18s to 30s in sizes. Ask to see these corsets when in the store.

Thompson's
Glove Fitting
Corsets.

We keep a full line of these goods from \$1.00 per pair up to \$2.00, including their popular K. and L. brands at \$1.00 and \$1.25 per pair. We carry nothing but the best makes of corsets and have built up a big corset trade by always selling reliable goods.

THOMAS IS SAD.

His Wife Has Left Him and He Mourns.

Tommy Humphries, the individual who is pathetic and humorous in the same breath, was at city hall at midnight calling upon the police to let him in and lock him up. He had nowhere to lay his head, and he wanted a bed for the night. As there were no members of the force around Thomas was compelled to walk away expressing regret that he was allowed to live. He claims that his wife has left him, and it is a trouble which sits ill upon his head. She is working in a restaurant, and that matter seems to give Thomas great concern.

STORIES OF BUGS

They Get Into People's Eyes and Bite Their Heads.

James Miller, a teamster, ran against a black bug this morning, and in a few minutes he could not see out of one eye, the swelling being as painful as it was effective. The bug did its work in a remarkably short time, and Miller suffered a great deal.

A man named Sharp, residing on Market street, was bitten on the hand by a spider, and in a few minutes the member had swollen several times its original size. The wound was so small that it could not be seen, but the effects were decidedly painful.

THROWN FROM A BUGGY.

The Boy Played With the Driver at the Wrong Time.

A boy whose parents reside on a shanty boat not far from the end of Second street was thrown from a buggy last night and sustained a cut on the head. In company with a man who was driving, the lad was riding on Smoky Row when he began playing with the driver. The horse scared, and the boy was thrown headlong to the street. At first it was thought that his back was injured, but it was soon found that his only injury was a long cut.

Henderson's Ideals.

Henderson's Ideals will hold the boards at the Grand next week, the opening play being "Nip and Tuck." It is a dramatic composition containing all the elements of popular success, and is put on by a good company. The scenes are laid at the English country residence of a titled family, and in the heart of fashionable London, thus giving scope for picturesque settings and costumes. A company of competent artists have been selected to support Mr. Harry Webber, and the city is promised a week of good performances.

FOR THE SAKE OF KICKING.

Wellsville People Have No Right to Oppose the Ohio Valley.

Two men, evidently residents of Wellsville, stood in the Diamond yesterday afternoon and kicked. They made each other believe they had just cause for kicking, and the manner in which they discussed the Ohio Valley Gas company brought smiles from those who chanced to hear the conversation. They thought it was an outrage that the company should be allowed to take up its mains after they were once down, but strange to relate they could give no reason for thinking on that line. It was an amusing conversation, and would probably have been doubly so had they known that the pipe is being taken up so that lines can be extended, and more gas brought to Liverpool during the coming winter.

Sporting Notes.

Winnie Mercer was evidently playing for his release from the Washington club. He is now putting up an article in the base ball line that is surpassing even his most enthusiastic friends.

There were few wheelmen from this city at the Lisbon fair today and in fact at no time during the fair did they appear at the county seat in great numbers. For some reason or other the fair did not arouse as much enthusiasm among the local cyclists as many of the picnics nearer home this season.

The Wellsburg races will attract quite a number of local cyclists on Saturday next and an effort is being made to take quite a crowd from this city.

The grammar school team and the high school will play ball on the West End grounds tomorrow, and the association juniors will cross bats with the Vodyre pottery club on Saturday afternoon.

Trappe's new wheel arrived this morning, but not in time to allow him to race in Lisbon. He has started to leave again, and by Saturday will be in excellent condition for the Wellsburg races.

In the bicycle races this morning the program of half-mile open, mile open and five-mile handicap was carried out. Jack Steele won everything in sight, there being no Liverpool men on the track.

Good health is a precious boon and those who enjoy it should preserve it at whatever cost. No More Danger.

The law in regard to keeping telephone messages strictly secret went into effect September 1. Telephone and telegraph operators are subject to a fine of \$1,000 or six months in jail for divulging the business of their lines, and all persons who wrongfully obtain possession of private matters from this source are subject to the same penalty. Realizing the importance of secrecy in their work, all telephone companies have long since adopted a strict rule preventing operators from telling anything they chanced to hear.

He Has Gone.

It is whispered around that a young man who was at one time in business in this city has packed his grip and departed for other climes. This would not be so remarkable, nor would so many people mourn, were it not for the fact that some of them have little slips of paper which they are longing to place in the hand of this same young man.

Oil cloths—Quay & Co.

While in Chicago, Mr. Charles L. Kahler, a prominent shoe merchant of Des Moines, Iowa, had quite a serious time of it. He took such a severe cold that he could hardly talk or navigate, but the prompt use of Chamberlain's Cough remedy cured him of his cold so quickly that others at the hotel who had bad colds followed his example and half a dozen persons ordered it from the nearest drug store. They were profuse in their thanks to Mr. Kahler for telling them how to cure a bad cold so quickly. For sale by Alvin H. Bulger, Sixth and West Market street, druggists.

A Startling Admission.

In New York City, for five consecutive years, the proportion of Deaths from Consumption has been three in every Twenty Persons.

Epidemics of Cholera, Yellow Fever and other diseases of similar character, so terrible in their results, occasion wide spread alarm and receive the most careful consideration for their prevention and cure, while consumption receives scarcely a thought, yet the number of their victims sinks into insignificance when compared with those of consumption. Comparatively few people know what to do for their loved ones when they see them gradually lose strength, lose color, manifest feeble vitality and emaciation, or develop a cough, with difficult breathing, or hemorrhage. Cod liver oil was for a long time given in all such cases, but the poor success attending its use coupled with its nauseating taste has led many practitioners, as well as the public at large, to place their main reliance in Dr. Pierce's Golden Medical Discovery. It deserves early attention and will prove effective in every case but in a large percentage of cases, and we believe that fully 98 per cent. of all cases of consumption can, if taken in the early stages of the disease, be cured with the "Discovery." Dr. Pierce does not ask people to believe until they have investigated for themselves. A pamphlet has been published having the names, addresses and photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies which will be mailed free to those sending for it with their name and address upon a postal card, or you can have a medical treatise, in book form of 160 pages, mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experiences.

Gone to this Work.

Professor Kerry left this afternoon for Montreal, which place he expects to reach late tomorrow evening. He has all his business affairs here in such condition that he will stay away until next summer. He takes up his duties in McGill university on Monday, when all the departments of the institution are opened for the term.

Irving W. Larimore, physical director of Young Men's Christian association, Des Moines, Iowa, says he can conscientiously recommend Chamberlain's Pain balm to athletes, gymnasts, bicyclists, foot ball players and the profession in general for bruises, sprains and dislocation; also for soreness and stiffness of the muscles. When applied before the parts become swollen it will effect a cure in one-half the time usually required. For sale by Alvin H. Bulger, Sixth and West Market streets, druggists.

Faith in the Newspaperman.

Mr. Louis A. Brush and Miss Maude Stewart were married yesterday afternoon at the residence of the bride at Church Hill, near Youngstown. Mr. Brush is the successful young man in charge of the business department of the Salem News, and the bride is an accomplished young woman.

All Free.

Paid for His Fun.

James McKee, the California hollow man who was so gloriously drunk yesterday that he did not know that he was being arrested, awoke from the effects of the stuff he had taken last night, and, upon paying \$6.00, departed from city hall, promising to stay sober in the future.

A. M. Bailey, a well known citizen of Eugene, Oregon, says his wife has for years been troubled with chronic diarrhoea and used many remedies with little relief until she tried Chamberlain's Colic, Cholera and Diarrhoea remedy, which has cured her sound and well. Give it a trial and you will be surprised at the prompt relief it affords. Twenty-five and 50-cent bottles for sale by Alvin H. Bulger, Sixth and West Market streets, druggists.

STILL A WINNER.

He Swept the Board At Lisbon Today.

Special to the NEWS REVIEW.

LIBSON, Sept. 19.—There were 7,000 people at the Lisbon fair yesterday, and the races were better than usual. The bicycle races were particularly good, and attracted much attention. Roy White won the half-mile handicap in 1:10, closely followed over the scratch by Springer and Steele. The Lyceum league mile championship was won by Springer in 3:04, and the mile local fell to the same rider in three minutes. He also won the half-mile special for members of the league in 1:14, which wound up the bicycle races. Among the horses, Little Greta got the green trot in 3:15, and Hard-to-Get won the 2:40 trot or pace in 2:24. The three-minute trot fell to Twilight in 2:35.

IN THE WRONG PLACE.

James Stewart Lost His Thumb in a Thrashing Machine.

James Stewart, a West Virginia man who was one of a party engaged in thrashing over the river today, was brought to town with one hand badly mangled. He was taken to a physician, and it was found necessary to amputate the thumb of his left hand. The accident was the result of carelessness, the injured man having put his hand too close to a portion of the machinery that is calculated to cut.

A NEW TEACHER.

A New Room Created at Central School Building.

Miss Ada Betz, of Lancaster, was today installed at Central school building as teacher of A division of the B grammar grade. The young lady is a graduate of Ada college, and is one of the force of experienced teachers recently employed by the board. The room is a new departure, caused by the demand for space, there being so many scholars.

A New Set of Officers.

The Buckeye Building association last night elected the following officers:

President, Doctor Marshall; vice president, D. O'Hanlon; secretary, John McGerry; treasurer, M. W. Elliott.

The association will resume business the first week in next month, and is making its bid for trade.

Some One Stole the Dog.

Harry Smith, of Fourth street, mourns today, and is cast down. The cause of his trouble is the fact that some one stole his pup this morning. It was a good dog and blooded, and the genial Harry feels as though he could cheerfully cut off the head of the thief and present it to some amateur football team.

Mysterious Double Tragedy.

SCRIBNER, Neb., Sept. 19.—Since Sunday Mr. and Mrs. Fred Hartman of this place have been missing and an investigation resulted in the discovery of a terrible tragedy. Mrs. Hartman now lies dead in the lower room of their residence in the east part of the town with a bullet hole in her neck and Mr. Hartman hangs to a rope in an upper room. The entire matter is a mystery.

Brinkerhoff Made President.

DENVER, Sept. 17.—The National Prison association has elected General Brinkerhoff of Ohio, president; Rev. John L. Mulligan of Pennsylvania, secretary and Charles W. Jesup of New York, treasurer. Theodore Roosevelt, the New York police commissioner, was made chairman of the committee on police in cities.

AN EXPERT'S OPINION

What Colonel Stickney Says of River Improvements.

DAMS AS FAR AS WHEELING

Will Work Wonders According to His Ideas, and Aid in Making the Stream Navigable Every Day in the Year—Great Interest Manifested in the Cincinnati Convention.

The convention of congressmen, rivermen, business men, manufacturers and all other people interested in the improvement of the Ohio, and the building of dams and dykes that will make the stream navigable every day in the year, will be the greatest gathering in the history of Cincinnati, and is expected to work a world of good.

The question has been discussed so much and hauled this way and that with so much vigor that a Pittsburgh paper recently asked Colonel Stickney his views of the matter. As a practical engineer, Colonel Stickney has no equal in this country, as he has had the experience, and when he talks on the subject, he knows what he is talking about. He was an engineer for the government during the late war, and his opinions on engineering matters are largely sought for. In a letter sent to Colonel Stickney he was asked the following questions: How much money will it take to complete the slackwater system between this city and Cincinnati? If dams were built higher than the one now at Davis island, would it lessen the number to be constructed between the two places? Could the work be done cheaper by contract, but under the supervision of the United States engineers? If the slackwater system was completed between this city and Wheeling, how many months in the year would it increase navigation between this city and Cincinnati, and will it be necessary to build a system of locks and dams the entire length, between this city and Cincinnati, to give the river shipping interests a navigable stream all the year? In his reply Colonel Stickney says:

"I can only reply to your questions in a general way. In 1875 Colonel Merrill submitted an estimate of cost for locks and movable dams, to give at least a navigable depth of six feet at all times from Pittsburgh to the mouth of the Ohio river. This provided for 68 locks and dams at a roughly estimated cost of \$39,000,000. From Pittsburgh to Cincinnati it estimated that 47 locks and dams would be necessary. Movable dams cannot be built much higher than the one at Davis island, on account of the difficulty in operating them. I do not think work of this kind should be done by contract, though, of course, material would be purchased by contract. It would require considerable study and comparison of water records to answer your question as to increase of length of time the river would be navigable with a system of dams to Wheeling. The building of dams for the whole length of the river, or even to Cincinnati, is not, in my opinion, necessary to make a navigable river. Just how far down the Ohio from Pittsburgh the slackwater system would be best, is not, in my opinion, a question for immediate solution, but I think it would be safe to say that such a system as far down as Wheeling would be advantageous. A very great improvement can be made in the open river navigation of the Ohio, and much of this would be necessary, even with slackwater system of movable dams.

"AMOS STICKNEY,
"Lieutenant-Colonel of Engineers, U. S. A."

The statement by Colonel Stickney, that in his opinion it would not be necessary to build a system of locks and dams the entire length of the river, or even as far as Cincinnati to make the Ohio navigable, is a matter for considerable study and rivermen contend that the river could be improved its whole length at a cost of many millions less than was figured by Colonel Merrill. If dams were built two feet higher than the one at Davis island it would do away with one dam in every six, but the difficulty of operating them, rivermen contend, is apparent. Some time ago, in answer to an inquiry, Colonel Stickney said that, with a system of cross, or spur dykes between this city and Cincinnati, the river could be made navigable all the year, and he probably had this system in view when he says it would not be necessary to build dams the entire length of the river, or even to Cincinnati, to make navigable water. Rivermen who have made a life study of the river, say that in many places there are deep pools in the channel, which extend a number of miles in length, and of course where these places exist it would naturally do away with dam building.

Captain John A. Wood, an old riverman, whose fame has spread beyond the length of the stream, is quoted as saying that if the United States government will extend the slackwater system as far as Wheeling, he will prove that in two summer months in the year he will be able to ship coal to Cincinnati by draining two feet of water from each of the pools above the one at Wheeling, and float the coal on the rise which would follow. In explanation of this Captain Wood said that, in the early days of boating, before they had dams, he has taken coal to Cincinnati on a rise extending only 29 miles in length, and got to his destination all right, but of course had to stay with the rise. He has done this, he says, when the rise would arrive here in the morning, and by night it would have passed, and those who waited would be left. This often happens nowadays, but Captain Wood says it only shows how advantageous a system of locks and dams between this city and Wheeling would be to the general public.

While the Pittsburgh coal men would be the great gainers by the slackwatering of the river, every manufacturing town along its entire course would be benefited. It is better than any company line of railway, because freight can be carried so much cheaper, and would be especially beneficial to this city, because there is only the remotest possibility of another railroad being built through here. Liverpool should be represented at the convention.

BEAT A HASTY RETREAT.

A Reminiscence of the Smallpox Panic in Liverpool.

They were talking about the smallpox scare in Wheeling when the dignified man with the silver locks recalled an incident of the smallpox panic in this city.

"I was a member of the board of health then," he said, "and we were deliberating at city hall one morning when a man walked in the room, and we almost dropped off our chairs. His face plainly showed that he suffered from the dread disease, and we had seen enough of it to know what it was. For the next few seconds it seemed as though there would not be enough doors and windows to allow the escape of the dignified board, but we rallied before there was a scene, and then decided to take the sick man to the pest house out on the hills beyond the reservoir. He did not realize the great danger in which he had placed us, and was surprised when he was ordered to march in the middle of the street, which he did. It was a pretty sight to see that man with the smallpox walking up the road while a member of the board walked on the pavement each side. But we got him safely in the hands of the doctors and then breathed easier. He had heard we were at city hall, and only came around to tell us he had smallpox."

CHARLESTON.

Good Attendance at the Opening Last Evening.

A large crowd saw "Charleston" at the Grand last evening, and were repaid for patronizing the amateurs who presented the excellent piece. While some of the players showed they had not always been on the stage, others did very well, more than one proving talent and careful training. J. G. Bailey, as the dark boy, was a pronounced success, and Miss Forence Jessup, in the Irish character, did better than any amateur seen in the city for many years. Taken all in all, the performance was a pronounced success, being on a par with many professional entertainments that have appeared on the same stage. The success of last night insures good houses this evening and tomorrow. The stage settings were very good, and created no end of favorable comment.

TALKED ABOUT A STORE.

Mr. Andrews Was Before Trades Council With His Plan.

At the meeting of Trades council last night Mr. Andrews was given opportunity to explain his plan for forming a cooperative store association in the city, and talked fluently upon the subject, but no action was taken. The three delegates who will represent the clerks were presented and seated in the organization. F. Leslie Trump, financial secretary, tendered his resignation and it was accepted, the place being given to Thomas Mills, of the kilnmen. The meeting was largely attended, and was one of the busiest ever held by the council.

Principal and Interest.

Thomas Means & Sons, of Wheeling, today recovered judgment in the court of Squire Morley for \$172.75, with interest from the first of the year. The case was against Anna Woolscroft because of some merchandise she had purchased.

FAIRMOUNT ALL RIGHT

The Home Is a Model Institution For Children.

THE NUMBER IT EMPLOYS

Economically Managed by the Commissioners of Columbiana and Stark Counties, It Stands High in the State—Praises From a Democratic Source.

Superintendent Southworth, of the Fairmount home, has some interesting statistics to give the commissioners of Columbiana and Stark counties when he makes his annual report in a few months.

During the year ending August 1 they have cared for on a daily average 155 children, at the cost of \$85.30 per capita for the year, making the entire cost for the year \$13,021.50. Of this amount \$2,200 was earned on the farm by members of the home. Not a single death has occurred among the inmates of the home. Mr. Southworth has placed during the year 32 children in homes on indenture and nine by adoption, leaving 140 still in the home at the close of the year. There are 23 persons employed at the home, there being three teachers, six matrons, two farmers, one electrician; four in Mr. Southworth's family and remaining being selected from the older inmates of the home.

In spite of various attempts on the part of the local Democratic press to show that the home is in a deplorable condition, the Alliance Critic, a Democratic paper, has this to say of the institution:

"Five years ago Mr. and Mrs. Southworth were appointed to their present positions, and the commissioners have not made a mistake in their choice, as the institution has been in a flourishing condition under their regime. The people of adjoining counties and Stark county are not aware that the Columbiana-Stark county children's home is among the finest, if not the finest home of the kind in the state of Ohio. The Lucas county home is a little more modern but not free of debt. The Lucas home is under the supervision of Mr. Niece and daughter, formerly of the Fairmount home, but not near the work is done in the Lucas home as at the Fairmount home. At the annual convention of the children home superintendents at Delaware, Superintendent Southworth was introduced as the overseer of the finest if not the finest home in the state. His work was found to be up with any home, and he was congratulated upon his work."

That should be enough to convince the most sceptical of the directors, of which Hon. David Boyce is one, are putting forward efforts to make the home a model institution.

THAT RACE.

The True Athlete Is the Man Who Retires Gracefully When Beaten.

It is nothing, if not amusing, to note the objection of Sandy Steele in a local paper last evening, because the News Review located Mr. Rogers, the new physical director of the association, in the minds of the public as the man who had beaten him in a tri-state field contest. His laying the blame for defeat on the News Review man, one of the judges, is doubly amusing, since George Matheny and Daniel Ogilvie, two gentlemen of undoubted integrity, were the other judges. It is plainly to be seen, however, that Steele has been advised in the wrong direction by some of his over-zealous and admiring friends, who have been talking far too much outside to keep their identity to themselves. The true athlete is the man who retires gracefully when beaten, or has the courage to issue another challenge if he still believes he can win. As to the success of future field days, it is advisable for Mr. Steele to remember that one man no more makes a field day than one lump makes a load of ice.

PREACHERS AT POLITICS.

Lively Scenes in the Conference at Canton.

The Methodist Episcopal conference is in full swing today and the preachers are working as hard as they are having a good time.

The announcement of the standing committees yesterday afternoon showed that Reverend Sears of this city had a place on the committee dealing with parsonages, and Doctor Locke was among those who were to handle the stewards. A series of resolutions praising Bishop Vincent and asking him not to transfer ministers from this conference without substituting men of equal brain power were passed, and the reports of the presiding elders were taken up. When asked if they had anything against any of the ministers there was no re-

sponse, and the assembled preachers broke out in loud applause, for that meant there would be no trials of conference members. Bishop Vincent is a masterly presiding officer, and all like him. He does not think all ministers are to be called preachers, and looks upon those who think so as fanatics, and he doesn't want fanatics in the church. A special from Canton says: "The preachers have all developed into politicians and such wire pulling has not been seen in a conference. There are jealousies that have cropped out during the year, and they are not tending to add to the spirit of the occasion. The place of meeting is provided with numerous committee rooms, and during sermons or lectures or the reading of reports ministers retire to these little rooms and concoct schemes for advancement and hold whispered conversations concerning candidates for delegates to the general conference."

The preachers are early risers, and at 8:30 this morning Bishop Vincent conducted devotional services, the conference convening half an hour later, and devoting the time until four this afternoon for the transaction of business. The veterans conduct their campfire tonight, and the Freedmen's society celebrates its anniversary.

PROSECUTOR HUFF DEAD.

A Prominent Hancock Attorney Died This Morning.

E. D. Marshall received the news from New Cumberland at noon today that W. J. Huff, prosecuting attorney of Hancock county, had died there this morning. Deceased was born near Pughtown 38 years ago, and was well known in this city. He was educated at Mt. Union and the Cincinnati law school, graduating from both institutions with honor. Six years ago he was elected to the office he now holds, solely because of his attainments and personal popularity. He was married to Miss Finley, a prominent young woman of Chester, who survives him. He was a leading member of the Junior Mechanics.

RAN FOR THE RIVER.

An East End Woman Wanted to Finish Her Life.

They say in the East End that a sensation would ring through the city if the facts in an incident that occurred last night were all made known. A woman wanted to end her life, being anxious to pass into the great beyond because of a happening, the disgrace of which she imagined she could not bear. The sensation is trimmed out in all the frills and furbelows of such happenings, and caused no end of talk among the people who chanced to learn of it. Every effort was made to keep it quiet, and with some success, but it is known that the woman made a desperate attempt to drown herself.

WANTED A PALACE CAR.

Jim Sharp Was Taken to the Works Today.

Jim Sharp, who wanted to annihilate his wife and a lot of other people with a hatchet the other evening, was taken to the Canton workhouse by Patrolman McMillen this morning. At the station Jim was in a playful mood, and suggested to the officer that they ride out in a parlor car, because he was not accustomed to riding in the smoker. He was informed that he should be glad he didn't have to walk, but Jim seemed to know the authorities were so happy at the thought of his absence that if necessary he could have gone in a parlor car.

A HOT DAY.

All Mankind Groomed Under the Scorching Heat.

The mercury in every thermometer in town did its best to get out of the tube today, so fiercely did the rays of the sun beat down upon the valley. Kilmen had all they could do in the potteries to endure the heat and complaints were heard in every other walk of life. The west is getting its share of the heat also, and the mercury out there goes even higher than in this latitude. There is no cold wave in sight just yet, but local thunder showers may lower the mercury tonight and tomorrow.

OFFICIALLY ANNOUNCED.

Authorities Notified That Wheeling's Quarantine Is Raised.

Mayor Gilbert this morning received a circular from Mayor Caldwell, of Wheeling, announcing that the quarantine is raised, and the people from Hancock county, and numerous other counties along the river can come to the metropolis whenever they so desire. This is done on the authority of Dr. N. D. Baker, health officer, who claims that the epidemic is under control and every case is isolated. The quarantine has been in effect so long that Wheeling began to feel the effect of it.

STUMBLING AND FELL

Mrs. Frank Earl Pitched Headlong Downstairs.

A WELL-KNOWN LADY INJURED

Picked Up Unconscious and Found to Have Sustained Serious Injuries—Cuts and Bruises, but No Bones Broken—Suffering Much Today.

Mrs. Frank Earl, wife of the policeman, met with a serious accident late last night.

She had started to go downstairs after her husband returned home and was off duty, and, stumbling at the top step, fell headlong to the landing below.

She was picked up unconscious, and it was some time before she was revived and a physician gave medical aid. The lady sustained several bad cuts about the head and face, and her body is a mass of bruises, but unless internal injuries appear it is not thought the accident will result fatally. Mrs. Earl is suffering considerably today. The accident occurred at the Earl residence on Walnut street.

A FUNNY TRIAL.

Humphries Case Causing Ocean of Fun at City Hall.

Those who attended the case of Thomas Humphries versus Patrick and Mrs. Catharine Costelow at city hall this afternoon, found the fun they were looking for.

Humphries sued for something over \$100 claimed as wages for work in the East End brickyard. Before the trial he and Mrs. Costelow had several hot arguments and when Humphries was put on the stand it continued except that P. M. Smith was Tommy's opponent. Humphries said he was to receive \$1.35 a day and \$2 a week on account until the first brick was sold. "But one Saturday night he couldn't get trusted at the grocers and I starved over Sunday." Tommy's book of original entry was a piece of wrapping paper, with the "tally" of 57 days' unpaid for work. Although Costelow owed him, Tommy said he paid him \$3.50 rent each month because he tormented the life out of him. "I've asked him a thousand million times for what he owed me" said Humphries. "He won't pay anybody anything anyhow." At 4 o'clock the trial was postponed.

A WOODEN WEDDING.

A Pleasant Surprise on Washington Street.

Major and Mrs. Newman, of Washington street, were pleasantly surprised by a party of relatives who came in to aid them in celebrating their wooden wedding. They were presented with many beautiful and appropriate presents of wood, and appetizing refreshments were served. Reverend and Mrs. Swan came up from Toronto to take part in the pleasure, and Reverend and Mrs. B. M. Swan drove over from New Waterford. Mrs. J. L. Swan returned with the last named this morning for a visit.

WALLACE GOT REVENGE.

George Pease Was Arrested and Fined for Drunkenness.

When James Wallace called on the mayor yesterday afternoon and told a story that would have brought tears from the electric lights had they heard, he little thought that George Pease, the man he wanted arrested, was even then preparing to work out retribution on his own head, but such was true. Early in the evening Officer Earl found Pease on Sixth street, and seeing that he was very drunk, took him down. This morning he paid Mayor Gilbert \$5.75, and departed in peace.

HUNTING A BREAK.

Bridgewater Gas Consumers Out of Fuel.

Consumers of Bridgewater gas awoke to find this morning that there was little if any fuel, and while they only needed it for cooking breakfast this hot morning, they had their hands full doing that. The cause of the scarcity is a break above the city on the other side of the river which occurred yesterday at noon. A force of men were immediately put to work hunting the spot, but they had not found it this morning. There will be an abundance of gas after it is found.

Waved Her Umbrella.

Mrs. Anson, residing near the residence of Charles Stevens, where there is a diphtheria case, had an amusing argument with Officer King at Fifth and Market this afternoon. The woman was mad because of certain regulations in the quarantine, and shook her umbrella at the officer.

THE enthusiastic ones who want
the legislature to substitute electrocution
for hanging should move with
caution. There are many stories of
cruelty floating about Sing Sing be-
cause of that electric chair.

THERE are cheers at Chickamauga
these days, and there is little less ring
of victory in them than in those
which sounded out on the air that
day so long ago, when intrepid
General Thomas saved Old Glory
from dishonor and disgrace.

BEFORE Mr. Campbell attempts to
knock the mote from the eye of his
Republican brother on the strength
that bosses rule the party, he should
carefully withdraw the Brice beam
from his own eye, and wire the New
Yorker that he can not obey his orders
or accept his gold for expenses in the
coming campaign.

THE REVENUE RAISER.

The Democrats are in a trap. They
made it themselves, and unknowingly
have been neatly caught, albeit the
thing was not intended to ensnare
the noble Grover and such lesser lights
among his officials as still cling to the
Wilson law and chirp the song of the
cuckoo when their chieftain is near.
The door dropped, and the gang were
caught when the official report of
the treasury, published this week,
showed that exports have been de-
creasing and imports increasing since
the new tariff became operative, and
even with this we have not been
given those promised markets of the
world nor has there been sufficient
revenue raised to support the govern-
ment. During the month of August
last year the total exports of domestic
merchandise were \$59,522,594, while
for the same time this year the
amount was \$54,575,649, a falling off
of \$4,936,945. Thus do we see the non-
sense of the Democrats claiming we
could capture the world if we only
had a low tariff.

On the other hand the imports have
been increasing at an alarming rate.
During the month of August, 1894,
the aggregate of imports was
\$51,697,072, the imports free of duty
amounting to \$24,782,310. During the
month of August, 1895, the imports
aggregated \$71,020,931, of which \$35,-
593,800 worth were free of duty. The
excess of imports for August, 1895,
over those of August, 1894, was \$19,-
323,859. For the eight months ending
August 31, 1894, the total imports
were \$452,942,344, while for the eight
months ending August 31, 1895, they
aggregated \$535,650,989, an increase
under Democratic tariff legislation of
\$82,708,645.

There is the story in few words, the
story of partisan assiduity and
Democratic inefficiency. A whole
volume in which is told why these in-
roads are made into the gold reserve,
and why the credit of the nation
must be protected by bond issues. It
is a history of disgrace, a black page
in the annals of the nation.

ALL UNDER ONE FLAG.

The Mason and Dixon Line
Wiped Out.

THE PARK DEDICATED TODAY.

Vice President Stevenson Presides on
Chickamauga Field—Gordon and Pal-
mer the Orators—The Blue and Gray
Reunited—Army of the Cumberland.

CHATTANOOGA, Sept. 19.—If one may
judge by the events of the last ten days
the Mason and Dixon line has been
wiped off the map. The friendly,
brotherly feeling that has been dis-
played here this week, and that was
shown at Louisville last week by the
boys of the gray toward the boys of
blue, the bitter sectionalism that has
so long divided the Union no longer ex-
ists. For nearly a fortnight now the
doors of the south have been thrown
open to the men who came here 30 odd
years ago bearing arms of slaughter
and destruction. Not a single incident
that would indicate a feeling of hatred
on either side has been recorded.

"Yankees" and "Johnny Rebs,"
grown gray with years, have gone over
the great battlefield together, discussed
the events of those awful days, drank
together and even in some instances
slept together without stirring up any-
thing like an angry thought. Generals
who commanded armies for the Union
have been guests of the generals of the
confederacy, and each has solemnly
declared that there is "no north and no
south."

"The events of yesterday have bound
us together as nothing else could have
done, and the solemn, yet joyous event
of today will seal the tie forever." So
spoke a veteran of the north to one of
the south at Snodgrass Hill, and the
latter replied, with tears in his eyes:
"Comrade, you are right. Shake
hands," and they did.

The formal dedication of the battle-
fields as a national park is taking place
today. Vice President Stevenson is
presiding and the principal orators are
Generals Palmer and Gordon.
It is doubtful if P. T. Barnum in his
palmiest days ever saw such a crowd at
his circus as assembled beneath one of
his three-ring tents in this city last
night. Barnum used to claim that it
seated 15,000 people. If he told the
truth there must have been a greater
number in it last night, for the space
used for circus performers was occupied
by auditors. The occasion for this
great gathering was the reunion of the
Society of the Army of the Cumber-
land. A large number of veterans be-
longing to the Society of the Army of
the Tennessee, who came here from
Cincinnati, were present as guests.

The venerable veteran, General J. D.
Morgan of Quincy, Ill., vice presi-
dent of the society, and who is now
past 80 years of age, presided in the
absence of General Rosecrans, the
president.

When the meeting had been called to
order, General Morgan introduced
Mayor George W. Ochs, who made the
address of welcome.

Response was made by General H.
V. Boynton, secretary of the associa-
tion.

Following General Boynton, General
Morgan made an address of welcome to
the confederate veterans, after which
Senator Charles Manderson of Minne-
sota delivered the annual address to the
society. By way of beginning, he said
the veterans had met here to record a
new era. Then he spoke of the battle
that occurred in this region. A great
change had taken place since that bat-
tle. The scattered hamlet, the object-
ive point of military endeavor in 1863,
was the thriving city, the center of
commercial distribution in 1895.

Then he referred feelingly to the
thousands of brave men who fell during
the battle, and then said: "Long ago,
while condemning the false teaching
that led to the belief that allegiance
was to the state, we appreciated how
deep abiding was the honest conviction
of those who taught in a different
school from us, made untold sacrifice
for the cause they espoused."

While nothing was forgotten of the
past, he went on to say everything was
forgotten. All now joined in the great
sentiment of Grant: "Let us have
peace."

Then he continued: "And now all
rancor and hate is gone. The Union-
ist and the Secessionist, the Federal
and the Rebel, the Yankee and the
Junnie, meet to rejoice in the existence
of a nation, not a Confederacy."

He referred to the "carping" critics
who abused General Rosecrans and
told of some of the heroic things ac-
complished by him at Stone river and
Nashville and to the genius for strategy
he displayed at Chickamauga. He
played a glowing tribute to Jackson,
Sill, Whittaker, Beatty, Geary, Kim-
ball, Newton, Baird, Brannon, Craft,
Rousseau, Davis, Johnson, VanCleve,
Reynolds, Steedman, Stockholm,
Granger, Garfield, Hooker, Palmer,
Crittenden, Wood, Stanley, McCook,
Howard and Sheridan. Those, he said,
were immortal heroes. Then he told
the story of the army of the Cumber-
land, of the hardships and fighting it
endured, and then closed with a bril-
liant peroration.

The Arion Glee club sang a song
when Senator Manderson had finished,
and then Hon. Hillary A. Herbert,
secretary of the navy, was introduced.
As the secretary came forward he was
greeted with loud applause.

Lieutenant General Schofield, Gen-
eral Grenville M. Dodge of Iowa, Gen-
eral Daniel Butterfield and General
Horace Porter each in turn made a
brief talk when Secretary Herbert had
finished. The meeting then adjourned.

It was announced that the society
would hold a business meeting to elect
officers Saturday morning.
Secretary Herbert said in part: "The
verdict of our civil war has been ac-
cepted as absolutely final. Centuries
will tread upon the heels of centuries
and still the perpetuity of the union of
these states will never be mooted.
That question was settled forever when
Lee offered, and Grant refused, the
sword of Lee at Appomattox. It was no
ambitious design of any great chieftain
that separated the south from the
north; it was to settle underlying prin-
ciples of government that the two sec-
tions arrayed themselves against each
other in battle."

"There was dispute in the conven-
tion that framed the constitution as to
what the relative powers of the states
and federal government ought to be, a
dispute afterward all along the line as
to what these relative powers really
were. That contention came down to
the generation of 1860, and it was of
such a nature so radical and so ultimate
that there was nothing for honest
men to do but to fight it out, and we
did fight it out, honestly, squarely
and bravely on both sides.

"Most wars that have settled great
questions have turned upon pivotal bat-
tles. But in our civil war neither
Manassas nor Gaines Mill, nor Freder-
icksburg, nor the terrible carnage at
Coal Harbor, nor all these combined
could dishearten the armies of the
Union.

"Nor could Donaldson, nor Vicks-
burg, nor Missionary Ridge, nor Gettys-
burg, all these together, break the
spirit of the confederates. The Con-
federacy fell only when exhausted by
four years of incessant combat. Then
the question of secession was decided,
and then, too, thank God, the question
of slavery, which had come into the
dispute, was also decided."

Several of the states dedicated their
monuments yesterday.

FOR A SILVER TICKET.

A Resolution Introduced at the Confer-
ence of Combined Silverites.

CHICAGO, Sept. 19.—The free silver
forces of the United States will be con-
solidated and headquarters will be
established in Chicago. General A. J.
Warner, president of the National Bi-
metallic league will be president of the
consolidated body and Secretary Edward
B. Light of the American Bimetallic
union will occupy a similar position in
the new body. This much has been
agreed upon at the conference of the
silver leaders at the Auditorium hotel.

A committee of nine was appointed
to take charge of affairs and to keep
their headquarters in Chicago open. The
committee promptly launched a bomb
in the shape of the following resolu-
tion:

"That it is the sense of the commit-
tee that an early conference of Bimetal-
lists from all states which are willing
to place the cause above party be called
to meet and formulate a plan toward
holding a national convention, to nomi-
nate candidates for president and vice
president of the United States, upon a
platform with the sole plans favoring
of independent bimetalism for the
United States."

HEBREW IN A RIOT.

A Knockdown Fight Occurs in a Syna-
gogue at Bradford.

BRADFORD, Pa., Sept. 19.—While Rosh
Hashanah was being celebrated by the
congregation in the Kennedy Street
Orthodox Hebrew church, a small sized
riot was started by the Garfinkle broth-
ers, who came in during services and
demanded that L. H. Cohen give up his
seat to them, and upon Cohen's refusal,
one of them threatened to knife him.

Morris Herron came between them
and tried to restore peace, whereupon
one of the brothers smote Herron on
the jaw and felled him to the floor.
The wildest excitement prevailed and
a general row was imminent. The po-
lice were sent for and the two Garfinkle
brothers were arrested and placed
under bail.

Boy Rescues His Grandmother.

HARRODSBURG, Ky., Sept. 19.—Mrs.
Christopher Peavler, about 70 years old,
living four miles west of this place, has
been attacked by a 2-year-old Jersey
bull and seriously, if not fatally,
wounded. Her 9-year-old grandson,
Scott Peavler, picked up stones and
pelted the animal until he left the in-
jured old lady and attacked the child,
who managed to escape.

Prominent Manufacturer Dead.

OIL CITY, Sept. 19.—Michael Geary,
a prominent manufacturer and the lead-
ing citizen of this town, has died in
New York after a brief illness, aged 51
years. Mr. Geary was president of the
Oil City boiler works, Oil City tube
works, the snow pump works of Buf-
falo, a large stockholder in Buffalo
street railway and electric light stock.

New Railroad For China.

LONDON, Sept. 19.—The Times today

THE PUGS CAN'T FIGHT

Gov. Culberson Won't Discuss Judge Hurt's Decision,

BUT HIS ACTIONS ARE OMINOUS.

It is evident that he intends to ignore the Court's opinion and stop the fight. He can call out the Rangers to prevent the Big Fistic Event.

AUSTIN, Tex., Sept. 19.—When Governor Culberson was seen in reference to Judge Hurt's opinion, at Dallas, favorable to prizefighting, he refused to express himself, but it is evident he will ignore the opinion and prevent the event. He has been looking up Governor Ross' action on the Sullivan-Kilrain fight, which he prevented from coming off in Texas, but was unable to find the records, which have been misplaced. Your correspondent, however, furnished him with an official copy of Ross' order to the sheriff, wherein he cites laws still in force and commands him to enforce them. Governor Culberson has several copies of the order made, and it is certain he proposes to prevent the fight.

Texas has a ranger force controlled and governed by special laws, and they can be ordered anywhere in the state by the governor without military regulations, and their special province is to prevent infractions of laws. Governor Culberson will probably use this force.

Ross directed sheriffs to call on the military if necessary, and Culberson's action unmistakably indicates that he will do the same and prevent the fight at all hazards.

SOVEREIGN GRAND LODGE.

Grand Treasurer Shepard Resigns and His Successor Is Appointed.

ATLANTIC CITY, Sept. 19.—At the session of the Sovereign Grand Lodge, Independent Order of Odd Fellows, resolutions were introduced to revise the ritual of the Patriarchs Militant and to amend the insurance law of the order, which were referred to the proper committee.

The following special committee was appointed to take action in regard to the purchase of property in Baltimore, for the use of the Sovereign Grand Lodge: James Young and John M. Jones, Maryland; W. W. Morris, Kentucky; M. Richards Muckle, Philadelphia; Alfred S. Pinkerton, Mass.; General A. C. Cable, Ohio, and T. T. Parson, Missouri.

Great surprise was occasioned by receiving the resignation of Sovereign Grand Treasurer Isaac A. Shepard of Philadelphia, due he wrote to failing health. M. Richards Muckle of Philadelphia was nominated for the vacancy. There was no opposition and he was unanimously elected.

Amendments to the constitution, introduced at last year's session, came up for final action. The first amendment was the addition of another section to Article 16, providing that no saloonkeepers, bartenders or professional gamblers shall be eligible to membership in the order. This immediately raised a spirited debate, which lasted for more than three hours. The vote was finally taken and the amendment passed by a vote of 167 to 32. This amendment has been successfully introduced at the annual sessions for four or five years past, but its supporters were never able to pass it before.

The Powers May Interfere.

LONDON, Sept. 19.—There are indications that the powers may be invited to interfere in the affairs of Belgium and the Congo Free State. The feeling in England regarding King Leopold's African venture was never very favorable, and the execution last January of the English trader, Stokes, without it, is alleged, observance of the due processes of the law excites much indignation here, which has found expression in the late session of parliament when the foreign office was urged to demand explanations.

Mortgaged For \$5,000,000.

MONTGOMERY, Ala., Sept. 19.—A mortgage for \$5,000,000 has been filed here in which the Louisville and Nashville and Mobile and Montgomery companies mortgage the latter company's property to the Central Trust company of New York. The mortgage recites that the proceeds of the mortgage will be applied to the cancellation of the \$500,000 existing bonded indebtedness of the road and to "additions, improvements and extensions."

Much Fruit In Michigan.

GRAND RAPIDS, Mich., Sept. 19.—The oldest inhabitant of Western Michigan has never seen anything to compare with the fruit crop of 1919. The season has been a most remarkable one. The crop of fruit in June and the severe frost which immediately followed was thought to have annihilated the entire crop, but fruits of all kinds seemed to have been increased instead of damaged.

SPAIN MEANS BUSINESS.

Four Consular Officers Appointed For Florida to Prevent Filibustering.

WASHINGTON, Sept. 19.—An evidence of the active efforts being made by the Spanish government to frustrate the departure of filibustering expeditions from the south to Cuba is afforded by the appointment of four Spanish consular officers for Florida alone. These have been recognized by the president as follows: Enrique Mariategui and Pedro Solis Y. Arias, as vice consuls of Spain at Tampa; Manuel Garcia Cruz, vice consul of Spain at Jacksonville, Fla.; Manuel Rodriguez Escudero, consul of Spain at Key West. Rowland W. Stuart has also been recognized as consular agent of Italy at Baitor, Me.

Information has reached the treasury department of the seizure of the schooner Lark off Pine Key, Fla., substantially as given in these dispatches yesterday. The Spanish minister called at the department with a statement obtained from the Spanish consul at Key West, that the Lark was only a part of an extensive filibustering expedition fitting out in Florida waters, and asking that the commanders of the revenue cutters now on duty there be instructed to use increased diligence in apprehending all offenders. This information was transmitted to the department of justice and also to the treasury department, and resulted in instructions being sent to the United States attorney and his marshals, and also to the customs collectors and commanders of the vessels of the revenue fleet, to use every possible means to arrest and bring to justice any offenders against international law.

THE INDIANAPOLIS FIRE.

The Total Loss From the Flames Will Aggregate \$454,000.

INDIANAPOLIS, Sept. 19.—The losses and insurances by the big fire in this city are as follows, though many of the minor losses which in the aggregate will amount to several thousand dollars are not included:

Eastman, Schleicher & Lee, 6-story building, building loss \$25,000, covered by insurance. The firm will lose \$175,000 on stock with \$100,000 insurance. The Indiana National bank building destroyed, loss on building \$40,000 to \$50,000; Addison C. Harris, law library, \$15,000, no insurance; George Manfield, stock valued at \$35,000 to \$40,000, total insurance, \$25,000; his damage is from smoke and water; George Wingerlo's tobacco store, \$5,000, covered by insurance; shoestore of J. W. Hart, stock damaged, no estimated loss, but is covered by insurance.

The New York store owned by the Pettis Drygoods company is a heavy loss by fire and water. No figures, but it will run away up into the thousands. The Condit (W. U.) block, loss to the telegraph company, \$8,000 in batteries and instruments. The building was also badly damaged. In this building were located the offices of Baldwin, Miller & Co., whose loss is \$10,000, with \$5,000 insurance.

Across Washington street from the fire the intense heat cracked many of the plate glass windows of the stores. The total loss on stocks, fixtures and effects will amount to \$357,000. The loss on buildings aggregated about \$97,000, giving a total loss of \$454,000.

Gentry Beats Potchen Again.

MILWAUKEE, Sept. 19.—John R. Gentry, the fastest stallion in the world, has added another to the list of victories which brightens his remarkable record. By beating Joe Patchen, his most formidable rival, in three straight heats at the fairgrounds. No records were wiped out and the two pacing kings did not show the speed which they have proved themselves possessed of, but the time was such as only these horses, and two others, Robert J. among them, could have possibly made. The fastest mile, which was the first paced, was done in 2:03 1/4, and the fastest quarter was in 29.

Did For a Field Gun.

WASHINGTON, Sept. 19.—In response to advertisements for proposals to supply a rapid fire fieldgun and ammunition sent out by the ordnance bureau of the war department, but one bid was received. It came from the Hotchkiss Ordnance company and has been opened. This company agreed to supply the gun with spare parts for \$1,500; to furnish a non-recall field carriage for \$650, and to supply other articles required at the following rates. One hundred solid brass drawn cartridge cases, \$200; 300 common shells, empty, \$675; 300 rounds of smokeless powder, \$660.

A Town Almost Wiped Out.

DODGE, Neb., Sept. 19.—This town has been almost wiped out by fire. Forty business houses burned with contents and also residences. The damage is over \$100,000. Fremont, Scribner and other towns sent special trains and with fire apparatus, which arrived too late to be of service. A fierce wind was blowing at the time. Many accidents occurred during the fire. The property was well insured.

Campos Thinks It Serious.

LONDON, Sept. 19.—A dispatch from Madrid to The Pall Mall Gazette says that General Martinez Campos has written to Senor Canovas Del Castillo, the Spanish premier, in which he declares that the Cuban rebellion is a great deal more serious than it was at the time of his last report.

A Mexican Youth Arrested.

CHICAGO, Sept. 19.—Rafael Cordina, a Mexican youth, has been arrested at the Palmer House here, charged with smuggling diamonds. Gems to the value of \$4,000 were found in his baggage.

Cholera Ravaging Japan at a Fearful Rate.

HAS A FIRM FOOHOLD IN CHINA.

Foreigners Fleeing Before the Plague at Nanking and Chu-Chai—A Missionary and Child Die of the Disease—Tokio and Yokohama Plague Stricken.

SAN FRANCISCO, Sept. 19.—Notwithstanding the efforts of the Chinese and exchange officials to suppress the news in regard to the cholera, the truth has at last come to light concerning the plague. Japan and North China are alive with cholera germs.

Siberia official have declared Japanese open ports infected, and from officials and from official sources it is learned that over 17,000 people have died in Japan from the plague since its start in the Pescadores.

In China the disease has gained a firm foothold. Advice has been given by the Rio Janeiro report that in Tokio the heat is terrific, and the disease germs have been nursed into virulent life. The plague also rages at Yokohama.

Miss Turner and the child of Dr. and Mrs. McFarland of the Chu-Chai London mission were stricken and died. At Nanking much illness prevails among the foreigners, many of them having been forced to flee from the country.

Fatal Wreck at Braddock.

PITTSBURGH, Sept. 19.—A fatal wreck has occurred at Braddock. The rails spread before a heavy train, throwing the engine on one side and the cars on the other side of the track. The fireman, James P. Kelly, fell under the boiler of the engine and was crushed to death. His body, horribly mangled, was taken to Flannery's undertaking establishment in Braddock. Frank Miller, the engineer, was thrown on a lumber pile 15 feet away, and had an arm fractured, face cut, and had deep scalp wounds, and it is feared he is internally injured.

Working on the Amphitheatre.

DALLAS, Sept. 19.—President Stuart of the Philadelphia Athletic club has put 100 mechanics and laborers at work on the arena for the Corbett-Fitzsimons prizefight. Hundreds of people have visited the building. The contractors say the building will be finished by Oct. 20.

A Prince Given a Furlough.

BERLIN, Sept. 19.—The National Zeitung says that Prince Henry of Prussia, brother of Emperor William, has been granted a furlough of a year on account of his uninterrupted services of several years' duration as an officer in the German navy.

Saw a Schooner Go Down.

ALPENA, Mich., Sept. 19.—The crew of the schooner Kitchen report that when crossing Saginaw bay they saw a schooner capsize and sink within 20 minutes. A gale was blowing at the time, and the Kitchen could not assist them.

Beaver Falls Man Arrested.

LOCAL BREVITIES.

The Jewish holiday is being observed in the city today.

A little child of Mr. Frost, residing on Sixth street, is dangerously ill.

The first cheap excursion of the season to Pittsburgh attracted 75 people from this city this morning.

The Royal Arch Masons of Wells-ville and their wives will be entertained by the Liverpool chapter next Wednesday evening.

The funeral of the late Mrs. Flowers will take place tomorrow morning instead of this morning, as was stated in this paper last evening.

Harry Finley, of Chester, returned this morning from New Cumberland bearing the news that Prosecutor Huff is very low, and will likely die within the next few days.

The friends of Charley Tarr have learned that he is in Kentucky traveling with Si Perkins. He not only looks after the music, but does a comedy part as well.

The painting crew of the railroad company are here today brightening the safety gates and signal posts. They might send another crew along for the purpose of painting the woodwork about the depot without making a mistake.

The committee having in charge the lecture course of the Young Men's Christian association have already started the sale of tickets, and the excellency of the course so appeals to the public that it is believed a good season will result.

Before leaving the city, Doctor Huston, pastor of the First Methodist Episcopal church, arranged with Doctor Lee, pastor of the First Presbyterian church, to occupy his pulpit on Sunday, and that eloquent gentleman will preach morning and evening.

When Harry Burgess was riding on Fourth street last night he attempted to turn into an alley as a man was coming out. The turn was sharp, and in trying to avoid a collision Burgess received a hard fall, with the usual complement of scratches and bruises.

Frank Smith, the young man who created so much excitement about the Hotel Grand the other evening, is much better and is improving rapidly. He is recovering from the effects of the dependency as well as his late illness, and will soon be able to be out.

Two young men who sat in the rear part of the opera house last night should take lessons in etiquette and thereby not cause their lady friends to be subjects of uncomplimentary remarks. Reference is made to those young men who by their actions disgusted people at the opera house last night.

Two small boys who were playing with a wheelbarrow on Sixth street last evening created a laughable scene by running into a portly resident of the West End, and tumbling him into a heap. He was not hurt, but after he found his breath, said some things that would not sound well in Sunday school.

There was terror about city hall this morning at 11 o'clock when Chief Gill announced that the mercury was standing at the 96 degree mark in the shade, and he was fearful lest it would go a little higher. Mayor Gilbert looked aghast at the news, Clerk Hanley turned pale, and even the chairs began to move uneasily.

The Lisbon fair drew another large crowd from the city today, but yesterday got the bulk of people who attended from here. The dust was almost unbearable, so great was the number of vehicles on the roads leading to the county seat, and one carriage load from this city got into a procession in which more than a dozen vehicles followed each other closely.

Warren McCain believes in advertising. The other evening he lost a valuable lapel button on the street, and last night placed an advertisement in the classified columns of the NEWS REVIEW. This morning Mr. McCain called bright and early at this office to say that his button had been found and returned. When you want to reach the people, advertise in the NEWS REVIEW.

To what extremes the small boy will go to imitate wild west or Buffalo Bill was shown by a sight on Sixth street a few days ago. A youngster was arrayed in the sombrero, soft shirt and pants, the latter rolled above his knees and his legs painted a bright red, while different colors of war paint decorated his face. He was mounted upon a horse, and calling for everybody to "come and see the great wild west show."

It is suggested that an error was made in the story recently telegraphed from Boston that the Masonic college was to be located above this city on the West Virginia side, and that the dispatches should read below East Liverpool, meaning the syndicate property opposite the West End. The story that the college would be founded and built within the next few years was printed in all parts of the country.

LOCAL BREVITIES.

The Jewish holiday is being observed in the city today.

A little child of Mr. Frost, residing on Sixth street, is dangerously ill.

The first cheap excursion of the season to Pittsburgh attracted 75 people from this city this morning.

What are Featherbone Corsets?

How are they different from other corsets. These are questions frequently asked us. To explain this correctly we must first state that the Featherbone corset people have a patent process of transforming the quills of feathers into an article for boning corsets that has no equal. It is not affected by dampness or perspiration; is soft and pliable. You cannot break it. It will stand washing and takes readily to your form. The corset needs no breaking in, and with each one sold the manufacturers give a written guarantee that the corset will be satisfactory or your money will be refunded.

Featherbone Corset Waists.

No corset waist sold will equal it for fit and wear. It's the perfect shape and gives your form a perfect contour. It is not a high-priced waist. We have them with the buttoned front or with the steels, in both drab and white from 18s to 30s in sizes. Ask to see these corsets when in the store.

Thompson's Glove Fitting Corsets.

We keep a full line of these goods from \$1.00 per pair up to \$2.00, including their popular K. and L. brands at \$1.00 and \$1.25 per pair. We carry nothing but the best makes of corsets and have built up a big corset trade by always selling reliable goods.

WHY

Does every man, woman and child endeavor to do the best they possibly can for themselves? It is human nature. Just the same reason that when a man or boy needs a new suit of clothes, he strikes for our store. He does.

NOT

waste time in going around among our competitors. They know by actual experience that we not only make it pleasant for you while at our store, but make it profitable as well. We want to keep you for our customer, and will.

TRY

our best to give you such satisfaction that we may always retain you for our customer. Our line of suits for men and boys this fall is exceedingly large, and our prices are so low that our competitors do not attempt to keep pace with us. Have you ever tried our store. If not, try.

THOMAS IS SAD.

His Wife Has Left Him and He Mourns.

Tommy Humphries, the individual who is pathetic and humorous in the same breath, was at city hall at midnight calling upon the police to let him in and lock him up. He had nowhere to lay his head, and he wanted a bed for the night. As there were no members of the force around Thomas was compelled to walk away expressing regret that he was allowed to live. He claims that his wife has left him, and it is a trouble which sits ill upon his head. She is working in a restaurant, and that matter seems to give Thomas great concern.

STORIES OF BUGS

They Get Into People's Eyes and Bite Their Heads.

James Miller, a teamster, ran against a black bug this morning, and in a few minutes he could not see out of one eye, the swelling being as painful as it was effective. The bug did its work in a remarkably short time and Miller suffered a great deal.

A man named Sharp, residing on Market street, was bitten on the hand by a spider, and in a few minutes the member had swollen several times its original size. The wound was so small that it could not be seen, but the effects were decidedly painful.

THROWN FROM A BUGGY.

The Boy Played With the Driver at the Wrong Time.

A boy whose parents reside on a shanty boat not far from the end of Second street was thrown from a buggy last night and sustained a cut on the head. In company with a man who was driving, the lad was riding on Smoky Row when he began playing with the driver. The horse scared, and the boy was thrown headlong to the street. At first it was thought that his back was injured, but it was soon found that his only injury was a long cut.

Henderson's Ideals.

Henderson's Ideals will hold the boards at the Grand next week, the opening play being "Nip and Tuck." It is a dramatic composition containing all the elements of popular success, and is put on by a good company. The scenes are laid at the English country residence of a titled family, and in the heart of fashionable London, thus giving scope for picturesque settings and costumes. A company of competent artists have been selected to support Mr. Harry Webber, and the city is promised a week of good performances.

FOR THE SAKE OF KICKING.

Wellsville People Have No Right to Oppose the Ohio Valley.

Two men, evidently residents of Wellsville, stood in the Diamond yesterday afternoon and kicked. They made each other believe they had just cause for kicking, and the manner in which they discussed the Ohio Valley Gas company brought smiles from those who chanced to hear the conversation. They thought it was an outrage that the company should be allowed to take up its mains after they were once down, but strange to relate they could give no reason for thinking on that line. It was an amusing conversation, and would probably have been doubly so had they known that the pipe is being taken up so that lines can be extended, and more gas brought to Liverpool during the coming winter.

Sporting Notes.

Winnie Mercer was evidently playing for his release from the Washington club. He is now putting up an article in the base ball line that is surpassing even his most enthusiastic friends.

There were few wheelmen from this city at the Lisbon fair today and in fact at no time during the fair did they appear at the county seat in great numbers. For some reason or other the fair did not arouse as much enthusiasm among the local cyclists as many of the picnics nearer home this season.

The Wellsburg races will attract quite a number of local cyclists on Saturday next and an effort is being made to take quite a crowd from this city.

The grammar school team and the high school will play ball on the West End grounds tomorrow, and the association juniors will cross bats with the Vodyre pottery club on Saturday afternoon.

Trappe's new wheel arrived this morning, but not in time to allow him to race in Lisbon. He has started to race again, and by Saturday will be in excellent condition for the Wellsburg races.

In the bicycle races this morning the program of half-mile open, mile open and five-mile handicap was carried out. Jack Steele won everything in sight, there being no Liverpool men on the track.

Good health is a precious boon and those who enjoy it should preserve it at whatever cost. No More Danger.

The law in regard to keeping telephone messages strictly secret went into effect September 1. Telephone and telegraph operators are subject to a fine of \$1,000 or six months in jail for divulging the business of their lines, and all persons who wrongfully obtain possession of private matters from this source are subject to the same penalty. Realizing the importance of secrecy in their work, all telephone companies have long since adopted a strict rule preventing operators from telling anything they chanced to hear.

He Has Gone.

It is whispered around that a young man who was at one time in business in this city has packed his grip and departed for other climes. This would not be so remarkable, nor would so many people mourn, were it not for the fact that some of them have little slips of paper which they are longing to place in the hand of this same young man.

While in Chicago, Mr. Charles L. Kahler, a prominent shoe merchant of Des Moines, Iowa, had quite a serious time of it. He took such a severe cold that he could hardly talk or navigate, but the prompt use of Chamberlain's Cough remedy cured him of his cold so quickly that others at the hotel who had bad colds followed his example and half a dozen persons ordered it from the nearest drug store. They were profuse in their thanks to Mr. Kahler for telling them how to cure a bad cold so quickly. For sale by Alvin H. Bulger, Sixth and West Market street, druggists.

A Startling Admission.

In New York City, for five consecutive years, the proportion of Deaths from Consumption has been three in every Twenty Persons.

Epidemics of Cholera, Yellow Fever and other diseases of similar character, so terrible in their results, occasion wide spread alarm and receive the most careful consideration for their prevention and cure, while consumption receives scarcely a thought, yet the number of their victims sinks into insignificance when compared with those of consumption. Comparatively few people know what to do for their loved ones when they see them gradually lose strength, lose color, manifest feeble vitality and emaciation, or develop a cough, with difficult breathing, or hemorrhage. Cod liver oil was for a long time given in all such cases, but the poor success attending its use coupled with its nauseating taste has led many practitioners, as well as the public at large, to place their main reliance in Dr. Pierce's Golden Medical Discovery. It deserves early attention and will prove effective in all cases of consumption. A pamphlet has been published having the names, addresses and photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies which will be mailed free to those sending for it with their name and address upon a postal card, or you can have a medical treatise, in book form of 160 pages, mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experiences.

Gone to this Work.

Professor Kerry left this afternoon for Montreal, which place he expects to reach late tomorrow evening. He has all his business affairs here in such condition that he will stay away until next summer. He takes up his duties in McGill university on Monday, when all the departments of the institution are opened for the term.

Irving W. Larimore, physical director of Young Men's Christian association, Des Moines, Iowa, says he can conscientiously recommend Chamberlain's Pain balm athletes, gymnasts, bicyclists, foot ball players and the professor in general for bruises, sprains and dislocation; also for soreness and stiffness of the muscles. When applied before the parts become swollen it will effect a cure in one-half the time usually required. For sale by Alvin H. Bulger, Sixth and West Market streets, druggists.

Faith in the Newspaperman.

Mr. Louis A. Brush and Miss Maude Stewart were married yesterday afternoon at the residence of the bride at Church Hill, near Youngstown. Mr. Brush is the successful young man in charge of the business department of the Salem News, and the bride is an accomplished young woman.

Paid for His Fun.

James McKee, the California hollow man who was so gloriously drunk yesterday that he did not know that he was being arrested, awoke from the effects of the stuff he had taken last night, and, upon paying \$6.00, departed from city hall, promising to stay sober in the future.

A. M. Bailey, a well known citizen of Eugene, Oregon, says his wife has for years been troubled with chronic diarrhoea and used many remedies with little relief until she tried Chamberlain's Colic, Cholera and Diarrhoea remedy, which has cured her sound and well. Give it a trial and you will be surprised at the prompt relief it affords. Twenty-five and 50-cent bottles for sale by Alvin H. Bulger, Sixth and West Market streets, druggists.

STILL A WINNER.

He Swept the Board At Lisbon Today.

Special to the NEWS REVIEW.

LISBON, Sept. 19.—There were 7,000 people at the Lisbon fair yesterday, and the races were better than usual. The bicycle races were particularly good, and attracted much attention. Roy White won the half-mile handicap in 1:10, closely followed over the scratch by Springer and Steele. The Lyceum league mile championship was won by Springer in 3:04, and the mile local fell to the same rider in three minutes. He also won the half-mile special for members of the league in 1:14, which wound up the bicycle races. Among the horses, Little Gretta got the green trot in 3:15, and Hard-to-Get won the 2:40 trot or pace in 2:29. The three-minute trot fell to Twilight in 2:35.

IN THE WRONG PLACE.

James Stewart Lost His Thumb in a Thrashing Machine.

James Stewart, a West Virginia man who was one of a party engaged in thrashing over the river today, was brought to town with one hand badly mangled. He was taken to a physician, and it was found necessary to amputate the thumb of his left hand. The accident was the result of carelessness, the injured man having put his hand too close to a portion of the machinery that is calculated to cut.

A NEW TEACHER.

A New Room Created at Central School Building.

Miss Ada Betz, of Lancaster, was today installed at Central school building as teacher of A division of the B grammar grade. The young lady is a graduate of Ada college, and is one of the force of experienced teachers recently employed by the board. The room is a new departure, caused by the demand for space, there being so many scholars.

A New Set of Officers.

The Buckeye Building association last night elected the following officers:

President, Doctor Marshall; vice president, D. O'Hanlon; secretary, John McGerry; treasurer, M. W. Elliott.

The association will resume business the first week in next month, and is making its bid for trade.

Some One Stole the Dog.

Harry Smith, of Fourth street, mourns today, and is cast down. The cause of his trouble is the fact that some one stole his pup this morning. It was a good dog and blooded, and the genial Harry feels as though he could cheerfully cut off the head of the thief and present it to some amateur football team.
